Cutting Notes: It is very important to mark and store your cutting pieces according to the block they have been assigned to, as this will make it much easier when you start piecing. Also, mark any pieced squares to avoid confusion as you assemble the quilt. Be sure to read the entire pattern before you begin.

5. Sew together Completed blocks from left to right as listed in the row chart to the right. Do this for all 5 Rows. Once the rows have been assembled, join the rows along their long sides, starting from Row 1, and working your way down to Row 5.
