Make the quilt

1. Add sashing to the center square:

Using a 1/2" seam allowance, sew sashing to one edge of the center square. Press sashing in half toward cut edges. Repeat around the square, sewing and pressing before attaching the next side. When you sew on the next border with a normal 1/4" seam, you will have created the 1/4" sashing.

2. Make the border with points:

Starting and ending with 32166-1 and alternating with 32168-7, sew points into the four borders. You will use 7 of the dark and 6 light for each side. Press seams open.

Center one border on the side of the quilt and sew. Trim each end to fit center square. Repeat for other side. Press seams toward border.

Carefully measure and trim top and bottom borders to fit center square. Sew a 2 1/2" corner square on each end of the borders. Press seams toward square.

Sew borders to top and bottom of center square. Press seams toward border.

3. Make the poodle border:

Sew strip of 32169-1 to each side of quilt. Press seams toward poodle border.

Sew 3" corner block to each end of the remaining borders. Press seams toward block.

Sew borders to top and bottom of quilt. Press seams toward poodle border.

4. Make the outer border:

Sew strip of 32165-4 to each side of quilt. Press seams toward poodle border.

Sew 3 1/2" corner block to each end of the remaining borders. Press seams toward block.

Sew borders to top and bottom of quilt. Press seams toward poodle border.

5. Make the sandwich:

Lay backing out smoothly on a flat surface. Add batting. Place batting so there is a large piece left over on one end. Roughly cut off, leaving at least 3" of batting beyond size of quilt.

Top with quilt. Pin or baste as desired.

Quilt top all over as desired, but think about curly haired poodles while you are deciding.

Do not trim or bind yet.

Make the Poodle Applique

1. Prepare background:

Press white background fabric and starch well to add body.

Tape pattern pieces together to make complete pattern.

Cut out and trace around the edge. Leave wide allowance around until applique is complete.

2. Prepare the applique pieces:

Cut out all the template pieces. (If you are going to do needle-turn applique, leave the seam allowances. If you are going to do raw edge applique, don't trim the seams yet.)

Following guide, trace around pattern pieces onto the paper side of the fusible web. Remember to turn them upside down!

Fuse to the appropriate fabric as listed in the yardages. In general, the “trimmed” parts of the dog are the small dot and the “fluffy” parts are the large flower.

Place all pieces on the background to see how they fit and where to place them. Follow the guide. If you are doing raw edge applique, mark where seams need to “hide” under another piece, and then trim seam allowances.

If desired, with leftover batting, put a little extra batting under the “puffy” parts of the dog. Cut batting smaller than the pattern piece by a fat 1/8”

When all the pieces are placed like you want them, using a disappearing marker, make marks where the pieces should go.

3. Assemble the dog:

Fuse/sew the pieces to the background in the following order: All four paws, right front leg, right back leg (these are the legs on the far side of the dog), face, tail bows, body of dog with tail, sweater, head bows, top of head, collar, ear, left front leg, left back leg, tail puff. Add any quilting and embellishment to the dog that you want at this time.

Sew on the button eye.

4. Attach the dog to the quilt:

Trim around all the edges of the background, allowing extra if any fabric has been drawn up during the applique. Stitch as desired to the quilt.

5. Finish up:

Trim and bind quilt to finish.
