For quilt center you will need to make 13 whole block A's and 6 half block A's.

You will need 8 whole block B's and 8 half block B's.

Size or starch pieces to be cut into half square triangles before cutting.

Making Block A:

1. Assemble 4-patch blocks of the red and turquoise and the black and turquoise $2\frac{1}{2}$ " squares. Make 24-red 4-patches and 18-black 4-patches for the whole block A's. Make 6-red 4-patches for half block A's.
2. On each side of one black $2\frac{1}{2}$ " square, sew a half square turquoise triangle as shown below in fig 1. Make 12.
3. Using template #2, cut 64 turquoise triangles from $4\frac{3}{4}$ " strips. See fig 2.
4. Using templates #1 and #3, cut 128 triangles, 64 out of #1 and 64 out of #3. (*Hint. If you cut two layers at a time, wrong sides together, you will be cutting 2 each of #1 and #3.*) See fig 3.

Fig 1

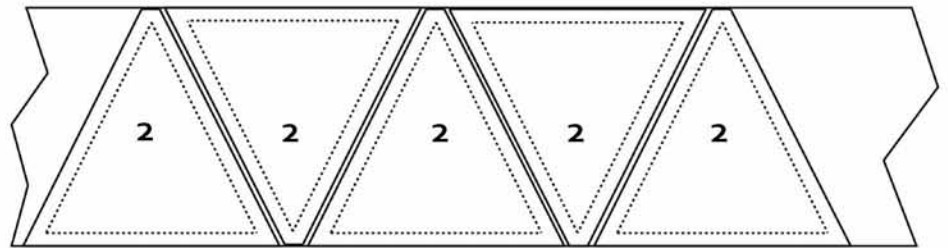

Fig 2

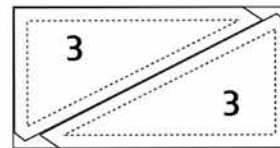

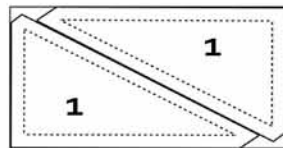

Fig 3

5. When triangles are all cut, sew a #1 to one side of #2 and then a #3 to the other side of #2 as shown in the illustrations below fig 4.
6. Trim to $4\frac{1}{2}$ " if necessary. If patch is coming out too small, take smaller seams.
7. Following the diagram on the next page, assemble rows, then sew rows together to create a block.
8. Make 13 whole blocks and 6 half blocks as shown on next page.
9. If necessary, trim blocks and half blocks to $12\frac{1}{2}$ " on each straight side. Trim up diagonal seam on half blocks.

Completed whole and half block A's are shown above.

Making block B:

1. Join the two different half square triangles cut for block B to create $4 \frac{1}{2}$ " squares. Make 54.
2. Following the diagram below, sew rows as illustrated. Join rows to create blocks. Make 8 whole blocks and 8 half blocks.
3. If necessary, trim to $12 \frac{1}{2}$ " on a side.

Completed whole and half block B's are shown above.

Assembling the quilt:

1. Following the layout of the picture of the quilt, create diagonal rows as follows:
 - a. half block B + half block A
 - b. half block B + block A + block B + half block A
 - c. half block B + block A + block B + block A + block B + half block A
 - d. half block B + block A + block B + block A + block B + block A + half block B
 - e. half block A + block B + block A + block B + block A + half block B
 - f. half block A + block B + block A + half block B
 - g. half block A + half block B
2. If the layout is creating vertical stripes through the quilt center, you have it right!
3. Sew together two rows at a time.
4. Join the two-row pieces to create the center of the quilt
5. Measure the center of the quilt lengthwise. Be careful not to stretch the bias edges of the half blocks.

6. Trim 2 turquoise borders to size. Attach to sides of quilt.
7. Measure the center of the quilt crosswise. Be careful not to stretch the bias edges of the half blocks.
8. Trim 2 turquoise borders to size. Attach to top and bottom of quilt of quilt.
9. NOTE: See the illustration on the next page for trimming the border width.
10. NOTE: When attaching the horse borders, make sure the horses are next to the center of the quilt and the red stripe is on the outside edge. See below.
11. Measure the center of the quilt lengthwise. Trim two horse borders to size and trim 2 black borders #2 to size. Sew black border to horse side of outer border and attach to the sides of the quilt. Use a walking foot if you have one. A border cut on the cross of the fabric is not as stable as one cut on the length.
12. Measure the center of the quilt crosswise. Trim two horse borders to size and trim 2 black borders #2 to the same size. Sew black border to horse side of outer border. Sew a block A to each end of the borders. Sew to top and bottom of quilt.
13. Make a sandwich of top, batting, and backing. Sew binding to this side using the 1/4" allowed
14. Quilt as desired...but think cactus.
15. Bind using a 1/4" seam exactly at the edge of the red stripe. Sew binding to this side using the 1/4" allowed!
16. Finish by hand at the back of the quilt.
17. Add a label.
18. Enjoy!

Note! When horse border and black border are sewn together, it should be 12 1/2".
Adjust horse and/or black border as necessary to be 12 1/2"!!
