Cutting the Fabric

Measurements include 1/4" seam allowances.

All cuts are the width of the fabric unless otherwise indicated. LOF = Length of Fabric

Cut apart appliqué pattern pieces and sort by fabric. Arrange on fabric to determine how much fabric needs to have fusible webbing applied. Iron fusible webbing to wrong side of fabric. Pin pattern pieces to right side of fabric and cut out shapes. Arrange on background fabric, remove backing and iron in place. Cut out scissor handle holes. The letter A on the appliqué patterns indicates background fabric.
