Center Panel Block

Making Scallops: Fuse the 6" X WOF pink strip to the fusible webbing following manufacturer's instructions.

Subcut into 1 1/2" X WOF strips. Use a circular template such as a butter lid to trace 28-32 scallops along edge of the strips. The scallops may vary in size for a whimsical look. Cut out the scallops, place along the edge of the 24" X 24" panel of bunnies, and iron in place.

Place a piece of embroidery stabilizer behind the scallops on the wrong side of the fabric.

Choose a decorative stitch such as blanket stitch or satin stitch and stitch around each scallop using a pink thread.

Remove stabilizer.

Framing Center Panel Block

1. After stitching scallops in place, use the four 3" X 3" brown squares for the corners. Draw a diagonal line on the back of each square. Place the square in the corners of the panel and stitch on the line. Fold fabric back over the stitched line and press in place. Lift the corner and trim excess fabric underneath.
2. Add the pink frame. Attach the 2 1/2" X 24" pink strips to the left and right sides of the panel, and then attach the 2 1/2" X 28" strips to the top and bottom of the piece. Press.
3. Use the 5" X 5" brown squares for the corners of the pink frame. Attach in the same manner as in step one.
4. Add the green frame. Attach a 1 1/2" X 24" green strip to the left and right sides of the piece. Sew a 1 1/2" X 1 1/2" square to the ends of two 1 1/2" X 24" green strips. Press. Sew to the top and bottom of the piece. Press. The center panel should now measure 30" X 30".

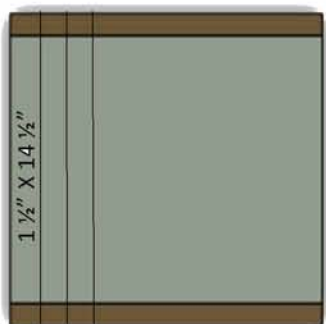

Foundation Pieced Blocks

The quilt designer assumes the customer knows how to do paper piecing. Use a small stitch length such as 1.5 to make removal of paper easier upon completing. To make piecing easier, use the following precut pieces:

- Fussy cut bunnies 8 1/2" X 8 1/2"
- Brown triangles cut from 4 3/4" squares and 6" squares
- Gold strips 2 3/4" X WOF
- Tan multi-colored strips 2 1/4" X WOF

Trim the blocks to 12 1/2" X 12 1/2" square after stitching. Remove the paper from the back of the blocks.

Add a frame to each block.

Attach a brown 1 1/2" X WOF strip to the green 12 1/2" X WOF strip as shown on the left.

Press toward the brown. Subcut making twenty-four 1 1/2" X 14 1/2" strips. Attach a 1 1/2" X 12 1/2" green strip to the left and right sides of the block. Press. Attach a 1 1/2" X 14 1/2" green/brown strip to the top and bottom of the block. Press.

Assembling the Center of the Quilt

Connect four blocks together with a 2" X 14 1/2" tan sashing strip in between. Then connect four sashing strips with brown 2" X 2" squares. Attach the long sashing strip to the bottom of the row of blocks. Press.

Connect two blocks vertically with a tan 2" X 14 1/2" sashing strip between. Make two.

Connect two sashing strips with a 2" X 2" brown square for each side of the center panel block, then sew the strips to the center panel. Attach the sets of two blocks to each side of the center panel.

Make the bottom row in the same manner as the top row. However, add the row of sashing and squares to the top of the blocks instead of the bottom.

Connect the three sections to complete the center portion of the quilt.

Borders

There are five borders surrounding the body of the quilt. Number one is closest to the inside and number five is the outer border. Connect like colored border strips end to end with a bias seam. Press seams open.

Border 1 (Tan): Measure the vertical length of the quilt and cut two strips that length. Attach the strips to the left and right sides of the quilt. Press toward the border. Measure the width of the quilt horizontally and cut two strips that length. Attach the strips to the top and bottom of the quilt. Press.

Measure, cut, and attach the following borders in the same manner: Border 2 (2 1/2" pink strips), Border 3 (3" green strips with bunnies), Border 4 (1 1/2" brown strips), and Border 5 (4" green strips with bees).

Finishing

Layer, baste, and quilt. Use the remaining green fabric with bees for binding. **ENJOY!**
