Heather Ross

DESIGNER SPOTLIGHT

Heather Ross is an illustrator, author, and textile designer with a large following in the crafts and sewing markets. Her textile designs are among the most recognizable in the retail fabric market and are a favorite among home sewers of clothing, accessories, and decor for children.

STUDIO EDIT

"Studio Edit is a celebration of my favorite prints—designs that have resonated with me over the years and continue to bring joy to makers. For this first volume, I curated a mix of past classics and a few fresh updates, all chosen with care from the archives of my studio. Each print tells a story of its own, but together they create a collection that's versatile, inspiring, and deeply personal. My hope is that Studio Edit will spark creativity and find its way into the projects that bring you the most joy." ~Heather
